

**TN750 ET-1 Transportable Radio System Case**

The ET-1 transportable radio system case is a rugged, weatherproof case constructed from high density polyethylene with reinforced walls. It has recessed handles, smooth latches, anodized valences and a pressure relief valve. The rack is shock mounted and the lid gasket is water tight. Any standard 19" Daniels Electronics subrack can be mounted inside. Racks are mounted inside the front and back of the case. Daniels subracks can be mounted back to back on both front and back racks. Optional duplexers can also be mounted inside the case in the 19" rack. Contact the factory for weight limitations.

The transportable radio case is available in two sizes, a 6 RU (Rack Unit) height and a 9 RU (Rack Unit) height. Contact the factory for other heights available.

## Dimensions for ET-1-A06-00 (6 RU Height Shelf)

Outside Depth:	32"	Internal Rack Depth:	20"
Outside Width:	26.5"	Internal Rack Width:	19" (standard mounting)
Outside Height:	18.5"	Internal Rack Height:	10.625"
Weight (Case Only):	44 lbs. (19.96 Kg)		

## Dimensions for ET-1-A09-00 (9 RU Height Shelf)

Outside Depth:	32"	Internal Rack Depth:	20"
Outside Width:	26.5"	Internal Rack Width:	19" (standard mounting)
Outside Height:	23.5"	Internal Rack Height:	15.875"
Weight (Case Only):	63 lbs. (28.58 Kg)
